Secretary of War Alger's Plan of Improvement For the Service.

DIVISION AND REGIMENTAL

Hospitals to Be Combined in a General One, With Sections Assigned to Each Regiment and Company—The Head of the War Department Believes That the Scheme Would Please the Soldiers.

Washington, Sept. 30.—Important results are likely to follow the extensive tour of inspection of the military camps just completed by Secretary Alger, and especially in the matter of reorganizing the division hospital in the field. The defect of the division hospital, in the minds of the soldiers, is the separation of the soldiers of the same regiment, causing great discontent, low spirits and discouragement. The men will go to great lengths to conceal real illness in order to escape being sent to the hospitals.

Against the regimental hospital it is urged that the men cannot be properly taken care of with troops on the move, with no female nurses and with a lack of every sanitary and medical device that modern practice regard as essential. Nowhere were the complaints of neglect and insufficient accommodation for the sick so numerous as in the cases of these regimental hospitals in the early stages of the war.

After a thorough examination of the relative merits and demerits of the two plans, Secretary Alger has framed a project which he now has under consideration for the amalgamation of the hospitals in such manner as to retain the most desirable features of both.

His plan is to have the division hospital arranged in sections of tents, lying in wings branching off from a central aisle. These can be very easily made by the use of a few ties and a proper connection of the common A tents. Then the sections are to be allotted to the different regiments in the division, each in care of one of the regimental doctors, yet receiving the attention of the high class talent and female nursing which is possible only in the big division hospitals. In this way the men would preserve the individuality of their command or commands.

The idea may be carried out so far as to sub-divide the sections into smaller sections, assigning one to each company in the regiment and thus enabling the sick men to make sure of falling in with their mates when they go to their hospitals.

Secretary Alger believes that the soldiers would thus be reconciled to going to the division hospital where they can secure the best of food and the luxuries, lie alongside of their companions and receive the benefits of laundries, kitchens, etc.

PROMOTED.

Major General Hawkins, a Santiago Hero, succeeds General Graham.

Washington, Sept. 30.—Major General Hamilton S. Hawkins, United States volunteers, who commanded the division which captured San Juan hill in the second day's fight at Santiago, has been appointed a brigadier general in the regular army to fill the vacancy caused by the retirement of General William M. Graham. Immediately after receiving his commission he will be placed on the retired list on his own application under the 30 years' service clause, and this will enable the president to immediately advance Major General J. F. Kent, United States volunteers, (colonel Twenty-fourth infantry) to the grade of brigadier general in the regular army.

General Kent commanded the wing

of General Shafter's army at Canby; for which service he was promoted to his present rank of major general of volunteers. General Hawkins and Kent are veterans of the civil war and were both brevetted several times for gallant and meritorious services during that conflict. General Hawkins was born in South Carolina, but was appointed to the army from New York. General Kent is a native of Pennsylvania, and was appointed to the army from that state. Both officers are graduates of West Point.

Shafter Still Indisposed.

New York, Sept. 30.—General Shafter was still indisposed at Camp Wikoff yesterday, and did not leave his headquarters at the clubhouse. He has malarial fever and has had several chills but no serious results are looked for. He is able to give orders and they are executed by Colonel McClelland, the adjutant. General Shafter expects to resume active work in a day or two.

Lee Summoned to Washington.

Washington, Sept. 30.—Major General Fitzhugh Lee arrived in Washington last evening from Richmond where he made a brief stop on his way from Jacksonville. He was summoned here by Secretary Alger, presumably for a conference with the president and the war department officials relative to the sending of troops to Cuba.

Invalid Soldiers From Montank.

New York, Sept. 30.—The Red Cross yacht, Red Cross, arrived at the foot of Pacific street, Brooklyn, yesterday with 17 sick soldiers from Montank. The men were transferred to St. Peter's hospital, Brooklyn.

Lawton's Report.

Washington, Sept. 30.—General Lawton's report of the total cases of sickness among the American troops at Santiago at 1,130; fever cases of all kinds, 731. No deaths.

CAMP MEADE SICK.

Medical Officer Girard Will Allow no More Troops Sent to City Hospitals.

Camp Meade, Sept. 30.—The action of the trustees of the Good Samaritan hospital, Lebanon, has resulted in the decision of Chief Medical Officer Girard to send no more patients to city hospitals while Camp Meade is in existence, unless an epidemic should make such a condition necessary. This hospital took 40 sick soldiers away from Camp Meade and then demanded pay from Governors Pingree and Bashnell.

General Graham does not favor the erection of temporary barracks at Camp Meade. He thinks such barracks would be more unhealthy than the tents. It would require at least two months to erect permanent barracks. Colonel Howard, chief quartermaster, thinks the present quarters of the men at Camp Meade can be made comfortable during the month of October.

COLONEL BRYAN.

His Condition Shows Much Improvement—Mrs. Bryan With Him. Washington, Sept. 30.—Colonel William Jennings Bryan of the Third Nebraska, is much improved. He was able to sit up a part of yesterday and hopes to be able to return to Jacksonville in a day or two. Mrs. Bryan has arrived here and will remain with her husband until he returns to the south.

Sick and Wounded Men.

Washington, Sept. 30.—An order of the war department directs that sick and wounded soldiers granted furloughs, are entitled to \$1.50 per day commutation and transportation when traveling to and from their homes to and from posts of duty.

Illinois Man.

Philadelphia, Sept. 30.—Private Emanuel Longman, Company F, Sixth Illinois volunteer infantry, died yesterday in the Pennsylvania hospital of typhoid fever. His home was at Pontiac, Ills.

Insurrection Increasing.

Madrid, Sept. 30.—Advice from Holo report that the insurrection in the Philippines is increasing considerably.

FEARS BLOODSHED

Troops Ordered to Panama, Ills., at the Request of the Sheriff.

Springfield, Ills., Sept. 30.—Governor Tanner was called up by telephone late yesterday by Sheriff Colburn of Panama in regard to the striking miners. Sheriff Colburn said that he had no further control of the miners and feared that there would be an outbreak and that loss of life and bloodshed were sure to follow. He asked that state troops be sent there.

Governor Tanner ordered Captain Craig of Battery D of Galesburg, and Colonel John B. Hamilton of Elgin, with two of the best equipped companies of his Sons of Veterans for riot duty, to proceed to Panama at once.

Governor Tanner ordered Captain Craig to camp within the city limits and to protect the life and property of the citizens, but under no circumstances should they aid the operators or mine owners in the operation of the mines with foreign labor, to which the governor is very much opposed.

FLOURMILLS

Of Milwaukee Being Purchased by a Big Syndicate.

Milwaukee, Sept. 30.—Five of the six Milwaukee flourmills have given options on their plants to a syndicate represented by Thomas A. McIntyre of New York, according to a rumor on 'Change, and the manager of one of the mills is authority for the statement that the consolidation will soon be effected.

In addition to five of Milwaukee's mills, whose daily combined capacity is 6,800 barrels, the syndicate is said to embrace three mills at Superior, Wis., three at Duluth, three at Minneapolis and one in New York, the total capacity being upwards of 100,000 barrels daily.

CHARM BROKEN.

A. L. Long Recently Becomes a Victim of Mischance—His Many Narrow Escapes.

Clarksville, Ind., Sept. 30.—A. L. Long, 13 years ago, fell from the bridge across the falls of the Ohio, striking upon the rock nearly 100 feet below. He escaped material hurt. Again, as a member of Jewel Lodge, Knights and Ladies of Honor, he was attending a meeting in the Falls City hall at the time of the awful tornado in 1891, and, although the building collapsed and every other member was killed outright or badly injured, when the storm passed, he was standing on the pile of debris, unharmed, but unable to tell how he got there. As a railroad engineer he had many wonderful escapes, seemingly to bear a charmed life. More recently, however, there came a change. A fever nearly blinded him, and then the collapse of a fine in a boiler destroyed one eye. A day or two ago his arm was broken by a helper while working in a box factory, and he was also painfully injured in the side.

Killed the Fire With Kerosene. Flora, Ind., Sept. 30.—Philip Kingery attempted to revive a fire with kerosene, and the can exploded, setting fire to his clothing and a cradle, in which his child was lying. Mrs. Kingery rescued the child, but all three were painfully injured.

Lafayette Day. Indianapolis, Sept. 30.—Governor Mount has issued a proclamation announcing Oct. 19 as a day for taking collections among schoolchildren for a monument to General Lafayette.

There were no deaths from fever in the state.

PARDONED AT LAST

General Blanco Issues a Decree Setting Political Prisoners Free.

PREPARING TO LEAVE CUBA

Spanish Troops Ordered to Rendezvous at Certain Ports to Take Passage For the Mother Country—Selling Horses, Mules and Oxen—Arranging For Distribution of Comal's Supplies.

Havana, Sept. 30.—The Official Gazette publishes a decree signed by Captain General Blanco and bearing date of Sept. 27 granting pardon to and ordering the release of all political prisoners now undergoing confinement in the island.

It is understood that orders have been given to the Spanish forces at Holguin to march to Gibara, concentrate there and hold themselves in readiness for shipment to Spain. The troops at Puerto Principe are ordered to go to Nuevitas, those on the Júcaro-Morón trocha to San Fernando, and those at Manzanillo to Cienfuegos. The Third and Fourth divisions of the First army corps will embark at Matanzas, and the First and Second divisions of the same corps from Havana. The forces in the province of Pinar del Rio and the division engaged in the defence of Havana, with General Blanco and his staff, will embark at Havana.

The Spanish provisional forces organized here will, according to the orders, go out of existence and will be incorporated in the ranks of the expeditionary troops of the Spanish army, returning to Spain, and a part of the "militarizados" (irregular troops) will be disbanded.

Each battalion is authorized to sell the horses, mules and oxen belonging to it and a special commission is appointed to oversee the sale by auction of the cavalry horses and the mules of the commissary department.

A meeting has been held at the lyceum in Matanzas for the purpose of arranging for a systematic distribution of the supplies brought from the United States by Red Cross steamer Comal.

At a meeting of the Havana city council a communication was read from the colonial secretary of justice, directing that of the \$50,000 delivered by the Spanish bank to the city treasurer, a certain sum be applied to the payment of the salaries of city officials, long due, but the order of the secretary was overruled by the council, which authorized the mayor to apply the entire sum to the payment of more urgent obligations. The council also decided to reclaim the ground belonging to the city, which had been given to the cultivation zone during the war.

REBELLION SPREADING.

Several Provinces In Luzon Reported to Have Been Invaded.

Madrid, Sept. 30.—A telegram received here from General Rios, Spanish governor of the Visayas islands, who is reported to have recently proclaimed himself governor general of the Spanish dominions in the Philippines, reports that insurgent expeditions have arrived at the Visayas. The rebellion, it is also reported, is spreading and several provinces in the Island of Luzon have been invaded and some officers of the gendarmerie and their families massacred. The governor and officials at Iloilo, Island of Pana, have fled to Manila.

La Correspondencia blames the Americans for tolerating the new rising of the insurgents and urges the government to present a protest to the Paris commission.

WHY IT WAS DONE

Emperor of China Was Deposed Because He Wore European Clothes.

Pekin, Sept. 30.—The developments of palace affairs confirm the belief that the emperor by the radical reforms which he had decreed, prepared himself for the blow struck by the dowager empress. The successive edicts furnish a history of the trend of affairs. The emperor's chief adviser, Kang-Yueh, obtained unbounded influence over him and inspired the reforms. The official classes opposed him and consulted the dowager empress as to means of nullifying these reforms.

The current story is that the immediate cause of the emperor's downfall was that he appeared one day in European clothes. This offense, it appears, was aggravated by the arrival in China of Marquis Ito, the Japanese statesman, which alarmed the palace officials as foreshadowing Japanese domination in the empire's councils. Thereupon the dowager empress acted with wonderful promptness and deposed her nephew before Pekin was aware that she had left the summer palace. Kang-Yueh, foreseeing trouble, fled two days before the crisis. His followers have been arrested.

The announcement of the emperor's death is expected soon, and the dowager empress is likely to appoint a figurehead as his successor retaining the real power herself. One report says the empress has strong views regarding Russian aggression in Manchuria, and that, though likely to restore Li Hung Chang to power, she is not likely to countenance his Russian leanings.

FAST TIME

Another Day of Excellent Sport at the Louisville Tracks.

Louisville, Sept. 30.—The chief event of the Driving and Fair association's meet yesterday—the 2:05 pace—was the occasion of excellent sport, a bad smash-up and some broken records, which include the fastest paced heat of the year. The race was won by Directly in straight heats. Bumps, a strong favorite, being clearly beaten, while Anaconda, the second choice, could give the black horse but little trouble. Bumps opened at 2 to 5, while 4 to 1 could be had against Directly. The third heat saw the accident and the fastest time of the year. As the horses were coming into stretch Bumps' sulky ran against that of Frank Bogash and was overturned. Planet and Ananias ran into it. They were also overturned. Fred Keys, the driver of Ananias, had his right foot wrenched, while Dick Wilson, who handled Bumps, besides a dislocated shoulder, suffered severe internal injuries. He was removed to a hospital. Directly won the heat easily from Anaconda, the time being 2:03 1/4, the track record and the fastest heat paced in a race this year, with the exception of the match between Patchen and Chelalis. The Kentucky Matron stakes was won by Mary Celeste in straight heats from Boralma, while Bernice, at 4 to 1, had no trouble in taking three straight heats in the 2:16 pace. Her time in the first heat—2:17 1/2—is the best of the year for 2-year-olds.

Joe Patchen Defeated.

Springfield, Ills., Sept. 30.—At the state fair yesterday, in the presence of a crowd of 60,000 people, John R. Gentry defeated Joe Patchen with ease in a match race for a purse of \$5,000. The first heat was won in 2:04 1/4, and the second in 2:03 1/4, and starter Newton announced that it was the fastest heat of the year. The conditions of the race were that both heats must be made in 2:05 or less. The winner received the purse.

TICKET NAMED

Democrats of New York Nominate Augustus VanWyck For Governor.

Syracuse, Sept. 30.—The Democrats of New York in state convention in this city yesterday named the following ticket: Governor, Augustus VanWyck of Kings; lieutenant governor, Elliot Danforth of Chenango; secretary of state, George W. Batten of Niagara; controller, Edward S. Atwater of Dutchess; state treasurer, E. P. Morris of Wayne; attorney general, Thomas F. Conway of Clinton; state engineer and surveyor, Martin Schenck of Rensselaer.

Contrary to all expectation the convention was very harmonious, the only contest being for the nomination for governor and only one ballot being taken on that.

The platform attacked the conduct of the war in vigorous language, but otherwise confined itself almost entirely to state issues. No mention whatever was made of the Chicago platform or of the financial question.

Veterinary Practitioner Hypnotism on Animals He Operates Upon.

Bowling Green, Ky., Sept. 30.—Dr. John E. Gray, the veterinary surgeon of this city, has been practicing hypnotism on cows and horses for the past few days. He is a well known hypnotist, and has given a number of private exhibitions with persons, merely for the entertainment of the people. A few days since he made an effort, that proved successful, upon a mule. He hypnotized the mule and by himself cut from him a very large tumor. This was done without the mule being fastened in any way. At another time he hypnotized a cow and made her follow him around and do almost anything he told her to do.

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 30. I constantly was an invalid, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

DIVISION AND REGIMENTAL

Hospitals to Be Combined in a General One, With Sections Assigned to Each Regiment and Company—The Head of the War Department Believes That the Scheme Would Please the Soldiers.

Washington, Sept. 30.—Important results are likely to follow the extensive tour of inspection of the military camps just completed by Secretary Alger, and especially in the matter of reorganizing the hospital service in the field. The defect of the division hospital, in the minds of the soldiers, is the separation of the soldiers of the same regiment, causing great discontent, low spirits and discouragement. The men will often go to great lengths to conceal real illness in order to escape being sent to the hospitals.

Against the regimental hospital it is urged that the men cannot be properly taken care of with troops on the move, with no female nurses and with a lack of every sanitary and medical device that modern practice regard as essential. Nowhere were the complaints of neglect and insufficient accommodation for the sick so numerous as in the cases of these regimental hospitals in the early stages of the war.

After a thorough examination of the relative merits and demerits of the two plans, Secretary Alger has framed a project which he now has under consideration for the amalgamation of the hospitals in such manner as to retain the most desirable features of both.

His plan is to have the division hospital arranged in sections of tents, lying in wings branching off from a central aisle. These can be very easily made. Then the sections are to be allotted to the different regiments in the division, each in care of one of the regimental doctors, yet receiving the attention of the high class talent and female nursing which is possible only in the big division hospitals. In this way the men would preserve the individuality of their command or companies.

The idea may be carried out so far as to sub-divide the sections into smaller sections, assigning one to each company in the regiment and thus enabling the sick men to make sure of falling in with their mates when they go to their hospitals.

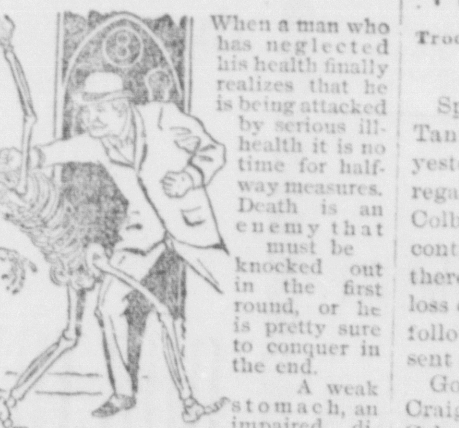

Secretary Alger believes that the soldiers would thus be reconciled to going to the division hospital where they can secure the best of food and the luxuries, lie alongside of their companions and receive the benefits of laundries, kitchens, etc.

PROMOTED.

Major General Hawkins, a Santiago Hero, Succeeds General Graham.

Washington, Sept. 30.—Major General Hamilton S. Hawkins, United States volunteers, who commanded the division which captured San Juan hill in the second day's fight at Santiago, has been appointed a brigadier general in the regular army to fill the vacancy caused by the retirement of General William M. Graham. Immediately after receiving his commission he will be placed on the retired list on his own application under the 30 years' service clause, and this will enable the president to similarly advance Major General J. F. Kent, United States volunteers, (colonel Twenty-fourth infantry) to the grade of brigadier general in the regular army.

General Kent commanded the wing

When a man who has neglected his health finally realizes that he is being attacked by serious illness, it is no time for half-measures. Death is an enemy that must be knocked out in the first round. The blood gets thin and weak, and the body slowly starves. In the meantime the disordered liver and the sluggish bowels have forced into the blood all manner of impurities. The body is hungry and eagerly consumes anything that the blood stream carries to it. In place of healthy nutriment, it receives for food food poisons that should have been excreted by the bowels. Continued this system of starvation combined with poisoning, will wreck every organ in the body. Naturally, the weakest organ will give way first. If a man is naturally nervous, he will break down with nervous exhaustion or prostration. If he inherits weak lungs, the consequence will be consumption, bronchitis, asthma, or some disease of the air-passages. If he has a naturally sluggish liver, he will suffer from a serious bilious or malarial attack. Dr. Pierce's Golden Medical Discovery cures all disorders of the blood and fills it with the life-giving elements of food that build new and healthy tissue. It is the great blood-purifier and flesh-builder and nerve tonic. It cures 98 per cent. of all cases of consumption. Thousands have testified to their recovery from this dread disease under this great medicine.

of General Shafter's army at Caney; for which service he was promoted to his present rank of major general of volunteers. General Hawkins and Kent are veterans of the civil war and were both brevetted several times for gallant and meritorious services during that conflict. General Hawkins was born in South Carolina, but was appointed to the army from New York. General Kent is a native of Pennsylvania, and was appointed to the army from that state. Both officers are graduates of West Point.

Shafter Still Indisposed. New York, Sept. 30.—General Shafter was still indisposed at Camp Wikoff yesterday, and did not leave his headquarters at the clubhouse. He has malarial fever and has had several chills but no serious results are looked for. He is able to give orders and they are executed by Colonel McClelland, the adjutant. General Shafter expects to resume active work in a day or two.

Lee Summoned to Washington. Washington, Sept. 30.—Major General Fitzhugh Lee arrived in Washington last evening from Richmond where he made a brief stop on his way from Jacksonville. CAMP MEADE SICK.

Medical Officer Girard Will Allow no More Troops Sent to City Hospitals.

Camp Meade, Sept. 30.—The action of the trustees of the Good Samaritan hospital, Lebanon, has resulted in the decision of Chief Medical Officer Girard to send no more patients to city hospitals while Camp Meade is in existence, unless an epidemic should make such a condition necessary. This hospital took 40 sick soldiers away from Camp Meade and then demanded pay from Governors Pingree and Bushnell.

General Graham does not favor the erection of temporary barracks at Camp Meade. He thinks such barracks would be more unhealthy than the tents. It would require at least two months to erect permanent barracks. Colonel Howard, chief quartermaster, thinks the present quarters of the men at Camp Meade can be made comfortable during the month of October.

COLONEL BRYAN.

His Condition Shows Much Improvement—Mrs. Bryan With Him.

Washington, Sept. 30.—Colonel William Jennings Bryan of the Third Nebraska, is much improved. He was able to sit up at a table yesterday and hopes to be able to return to Jacksonville in a day or two. Mrs. Bryan has arrived here and will remain with her husband until he returns to the south.

FEARS BLOODSHED

Troops Ordered to Manila, Ills., at the Request of the Sheriff.

Springfield, Ills., Sept. 30.—Governor Tanner was called up by telephone late yesterday by Sheriff Colburn of Pana in regard to the striking miners. Sheriff Colburn said that he had no further control of the miners and feared that there would be an outbreak and that loss of life and bloodshed were sure to follow. He asked that state troops be sent there.

Governor Tanner ordered Captain Craig of Battery D of Galesburg, and Colonel John B. Hamilton of Elgin, with two of the best equipped companies of his Sons of Veterans for riot duty, to proceed to Pana at once.

Governor Tanner ordered Captain Craig to camp within the city limits and to protect the life and property of the citizens, but under no circumstances should they aid the operators or mine owners in the operation of the mines with foreign labor, to which the governor is very much opposed.

CHAIRM BROKEN.

A. L. Long Recently Becomes a Victim of Mischance—His Many Narrow Escapes.

Clarksville, Ind., Sept. 30.—A. L. Long, 13 years ago, fell from the bridge across the falls of the Ohio, striking upon the rock nearly 100 feet below. He escaped material hurt. Again, as a member of Jewel Lodge, Knights and Ladies of Honor, he was attending a meeting in the Falls City hall at the time of the awful tornado in 1891, and, although the building collapsed and every other member was killed outright or badly injured, when the storm passed, he was standing on the pile of debris, unharmed, but unable to tell how he got there. As a railroader he had many wonderful escapes, seemingly to bear a charmed life. More recently, however, there came a change. A fever nearly blinded him, and then the collapse of a fine in a boiler destroyed one eye. A day or two ago his arm was broken by a helper while working in a box factory, and he was also painfully injured in the side.

Kindled the Fire With Kerosene. Flora, Ind., Sept. 30.—Philip Kinyery attempted to revive a fire with kerosene, and it exploded, setting fire to his clothing and a cradle, in which his child was lying. Mrs. Kinyery rescued the child, but all three were painfully injured.

PARDONED AT LAST

General Blanco Issues a Decree Setting Political Prisoners Free.

PREPARING TO LEAVE CUBA

Spanish Troops Ordered to Rendezvous at Certain Ports to Take Passage For the Mother Country—Selling Horses, Mules and Oxen—Arranging For Distribution of Comal's Supplies.

Havana, Sept. 30.—The Official Gazette publishes a decree signed by Captain General Blanco and bearing date of Sept. 27 granting pardon to and ordering the release of all political prisoners now undergoing confinement in the island.

It is understood that orders have been given to the Spanish forces at Holguin to march to Gibara, concentrate there and hold themselves in readiness for shipment to Spain. The troops at Puerto Principe are ordered to go to Nuevitas, those on the Júcaro-Morón trocha to San Fernando, and those at Manzanillo to Cienfuegos. The Third and Fourth divisions of the First army corps will embark at Matanzas, and the First and Second divisions of the same corps from Havana. The forces in the province of Pinar del Rio and the division engaged in the defence of Havana, with General Blanco and his staff, will embark at Havana.

The Spanish provisional forces organized here will, according to the orders, go out of existence and will be incorporated in the ranks of the expeditionary troops of the Spanish army, returning to Spain, and a part of the "movilizados" (irregular troops) will be disbanded.

Each battalion is authorized to sell the horses, mules and oxen belonging to it and a special commission is appointed to oversee the sale by auction of the cavalry horses and the mules of the commissary department.

A meeting has been held at the Lyceum in Matanzas for the purpose of arranging for a systematic distribution of the supplies brought from the United States by Red Cross steamer Comal.

At a meeting of the Havana city council a communication was read from the colonial secretary of justice, directing that of the \$50,000 delivered by the Spanish bank to the city treasurer, a certain sum be applied to the payment of the salaries of city officials, long due, but the order of the secretary was overruled by the council, which authorized the mayor to apply the entire sum to the payment of more urgent obligations. The council also decided to reclaim the ground belonging to the city, which had been given to the cultivation zone during the war.

REBELLION SPREADING.

Several Provinces In Luzon Reported to Have Been Invaded.

Madrid, Sept. 30.—A telegram received here from General Rios, Spanish governor of the Visayas islands, who is reported to have recently proclaimed himself governor general of the Spanish dominions in the Philippines, reports that insurgent expeditions have arrived at the Visayas. The rebellion, it is also reported, is spreading and several provinces in the Island of Luzon have been invaded and some officers of the gendarmerie and their families massacred. The governor and officials at Iloilo, Island of Pana, have fled to Manila.

La Correspondencia blames the Americans for tolerating the new rising of the insurgents and urges the government to present a protest to the Paris commission.

WHY IT WAS DONE

Emperor of China Was Deposed Because He Wore European Clothes.

Pekin, Sept. 30.—The developments of palace affairs confirm the belief that the emperor by the radical reforms which he had decreed, prepared himself for the blow struck by the dowager empress. The successive edicts furnish a history of the trend of affairs. The emperor's chief adviser, Kang-Yuwei, obtained unbounded influence over him and inspired the reforms. The official classes opposed him and consulted the dowager empress as to means of nullifying the reforms.

The current story is that the immediate cause of the emperor's downfall was that he appeared one day in European clothes. This offense, it appears, was aggravated by the arrival in China of Marquis Ito, the Japanese statesman, which alarmed the palace officials as foreshadowing Japanese domination in the empire's councils. Thereupon the dowager empress acted with wonderful promptness and deposed her nephew before Pekin was aware that she had left the summer palace. Kang-Yuwei, foreseeing trouble, fled two days before the crisis. His followers have been arrested.

The announcement of the emperor's death is expected soon, and the dowager empress is likely to appoint a figurehead as his successor retaining the real power herself. One report says the empress has strong views regarding Russian aggression in Manchuria, and that, though likely to restore Li Hung Chang to power, she is not likely to countenance his Russian leanings.

Yellow Fever Report.

New Orleans, Sept. 30.—Dr. Senebier, president of the Louisiana state board of health, makes the following fever report for yesterday: New Orleans, one new case; Houma, one new case; Wilcox, four new cases; Franklin, eight new cases. There were no deaths from fever in the state.

FAST TIME

Another Day of Excellent Sport at the Louisville Tracks.

Louisville, Sept. 30.—The chief event of the Driving and Fair association's meet yesterday—the 2:05 pace—was the occasion of excellent sport, a bad smash-up and some broken records, which include the fastest paced heat of the year. The race was won by Directly in straight heats. Bumps, a strong favorite, being clearly beaten, while Anacorda, the second choice, could give the black horse but little trouble. Bumps opened at 2 to 5, while 4 to 1 could be had against Directly. The third heat saw the accident and the fastest time of the year. As the horses were coming into stretch Bumps' sulky ran against that of Frank Bogash and was overturned. Planet and Ananias ran into it. They were also overturned. Fred Keys, the driver of Ananias, had his right foot wrenched, while Dick Wilson, who handled Bumps, besides a dislocated shoulder, suffered severe internal injuries. He was removed to a hospital. Directly won the heat easily from Anacorda, the time being 2:03 1/4, the track record and the fastest heat paced in a race this year, with the exception of the match between Patchen and Chetahs. The Kentucky Matron stakes was won by Mary Celestia in straight heats from Borlaima, while Bernice, at 4 to 1, had no trouble in taking three straight heats in the 2:16 pace. Her time in the first heat—2:17 1/2—is the best of the year for 2-year-olds.

Joe Patchen Defeated.

Springfield, Ills., Sept. 30.—At the state fair yesterday, in the presence of a crowd of 60,000 people, John R. Gentry defeated Joe Patchen with ease in a match race for a purse of \$5,000. The first heat was won by \$5,000, and the second in 2:03 1/4, and starter Newton announced that it was the fastest heat of the year. The conditions of the race were that both heats must be made in 2:05 or less. The winner received the purse.

TICKET NAMED

Democrats of New York Nominate Augustus Van Wyck For Governor.

Syracuse, Sept. 30.—The Democrats of New York in state convention in this city yesterday named the following ticket: Governor, Augustus Van Wyck of Kings; lieutenant governor, Elliot Danforth of Chenango; secretary of state, George W. Batten of Niagara; controller, Edward S. Atwater of Dutchess; state treasurer, E. P. Morris of Wayne; attorney general, Thomas F. Conway of Clinton; state engineer and surveyor, Martin Scheuch of Rensselaer.

Contrary to all expectation the convention was very harmonious, the only contest being for the nomination for governor and only one ballot being taken on that.

The platform attacked the conduct of the war in vigorous language, but otherwise confined itself almost entirely to state issues. No mention whatever was made of the Chicago platform or of the financial question.

TERRIBLE

Was the Loss of Life and Destruction of Property at Barbadoes.

New York, Sept. 30.—The Quebec line steamer Pretoria, Captain McKay, has arrived from the West Indies, and reports the hurricane at Barbadoes as terrible and most destructive. From 10,000 to 15,000 houses and buildings were destroyed; 70 lives lost and 50,000 people left homeless. At St. Kitts the storm raged on the night of the 18th, from 10 p. m. to 1 a. m., of the 19th, the wind blowing at the rate of 60 miles an hour.

Shoplifters Arrested.

Chicago, Sept. 30.—Mrs. John Polie and her daughter, Minnie, 30 years of age, were arrested yesterday on a charge of shoplifting. Their flat was packed with goods of every description which had been pilfered from down town stores. The police recovered goods worth about \$8,000. The flat had enough goods to stock a dry goods and notion store.

This is a queer county in some respects. Col. Bryan is compelled to take off his uniform in order to put on his fighting clothes.

When the votes are counted in November it will be discovered that Col. Roosevelt is a resident of New York, and by a large majority.

In his opening campaign speech Mr. Bailey complimented "my democratic assistants in Congress." It was quite magnanimous in Mr. Bailey. He might have referred to his hired hands.

The campaign orators who go about now finding fault with their government are not the men who fought for the Union from '61 to '65 and endured untold hardships in camp, on the battle field and in rebel prisons.

Leader Joe Bailey cannot understand why his speeches are not indorsed by the respectable democratic newspapers. This is the same Mr. Bailey who could not understand why his leadership was so ludicrous.

The Connecticut democrats have discarded the Chicago platform and propose to make a campaign on state issues. Yet George Fred Williams went all the way to Omaha to inform the country that the cause of free silver was gaining in New England.

Judge Hackney has fully made up his mind on the democratic situation in Indiana and has withdrawn from the state ticket. Judge Hackney is one of the most prominent democrats in the state and has made a good record on the supreme bench. He is not and never has been in sympathy with his party on the money question.

E. M. Young, who succeeds W. P. Rider as the proprietor of the Crothersville Commercial says in his "salute" that the Commercial under the new management will be run purely as a "financial enterprise" and we believe it. Mr. Young has been a resident of Seymour for several years, during which time he has claimed to be a republican and has been so polled, but in taking charge of the Commercial he lays aside his political convictions and says that the paper will henceforth advocate democracy. He also commits himself to the official ringsters of the county. Therefore can anyone doubt that the Commercial under its new management is run "purely as a financial enterprise"?

Who knows the democratic position on the problems of annexation? The speakers who have been heard in the Fourth district are at variance on that subject which shows that the party has not reached a conclusion on one of the most important questions before the people. Congressman Griffith voted for the annexation of Hawaii, but John W. Kern and Green Smith who are working under the direction of the state committee have been down telling the democrats of the district that the annexation of Hawaii was all wrong, therefore their representative in congress voted wrong. John Overmyer in his speeches says that annexation is just the thing and that we must not stop with Hawaii but should take in all the islands of the sea that our soldiers have trod upon during the recent war. Frank Burke tells the people that not a foot of territory should be added. So with these spokesmen at variance what are we to conclude as to the democratic position on this question of supreme interest to the people. The coming of Kern and Smith into the district and their arguments against the vote of Griffith in congress on the annexation question is embarrassing to the men who have to make the fight for the reelection of their congressman.

Bismarck as Dr. Jekyll.

No greater contrast could possibly be imagined than that which existed between the Bismarck of private life and the Bismarck of politics. "In the home circle," writes a correspondent who knew him well, "he was perfectly charming, easy going and good natured. He was passionately fond of children, and I have seen him over and over again have a game with the little ones of his gardener, who were very familiar with him and would not hesitate to climb upon his knee."

"Once when his gardener's little girl died the great statesman went to condole with him. He was dreadfully upset and while holding the poor father's hand burst into tears, for he was very fond of the child. He kissed the little corpse and himself placed a bunch of roses in its hand. He was always eager to assist his poorer neighbors and enjoyed chatting with them on all subjects but politics. These he never mentioned."—London Chronicle.

Servian Marriages.

Servian men do not marry for love, but to secure an additional worker for the household, so very young men marry women several years older than themselves, as girls are less experienced in housework. In the lower and middle classes women are always helped last, and may not sit down unbidden in the presence of the men.

There are only 3,842 left of the Ainos of Japan—the "Indians" of that country. Nearly all of them live on the northern island of Yezo.

It has been estimated that it would take a man 3,000 years to read all the standard works.

THE RICH RUSSIAN.

He Has a Weakness For an Army of Family Servants.

We were a family of 8, occasionally of 10 or 12 says Prince Kropotkin in The Atlantic, but 50 servants at Moscow, and half as many more in the country, were considered not one too many. Four coachmen to attend a dozen horses, three cooks for the masters and two more for the servants, a dozen men to wait upon us at dinner time—one man, plate in hand, standing behind each person seated at the table—and girls innumerable in the maidservants' room, but how could any one do with less than this?

Besides, the ambition of every landed proprietor was that everything required for his household should be made at home by his "own" men.

"How nicely your piano is always tuned. I suppose Herr Schimmel must be your tuner?" one of the visitors would remark.

To be able to answer, "I have my own piano tuner," was in those times the correct thing.

"What beautiful pastry!" the guests would exclaim when a work of art, composed of ices and pastry, appeared toward the end of the dinner. "Confess, prince, that it comes from Tremble!" (the fashionable pastry cook).

"It is my own confectioner, a pupil of Tremble, whom I have allowed to show what he can do," was the reply which elicited general admiration.

To have embroideries, harnesses, furniture—in fact everything—made by one's "own" men was the ideal of the rich and respected landed proprietor.

The Professor's Wisdom.

The stern professor of the feminine preparatory school sat at his desk trying to unravel a knotty problem when a fluffy haired miss of 16 approached.

"Please, sir," she began in a tremulous voice, "will you grant me permission to go out riding with my brother this afternoon?"

Now, the old man had not forgotten the days of his youth, neither was he a fool, and looking over his spectacles he slowly said:

"So you want to go riding with your brother, do you? By the way, is this brother of yours any relation to you?"

THE SEYMOUR STEAM LAUNDRY.

Our Street Fair Song.

We set the pace, and from one point
Our banner shall not fall—
We fling it to the breeze and reach
Some higher than them all!

Our wagon flies round Seymour town
Each hour of every day,
Depositing and picking up
All LAUNDRY on the way.

We do not boast, and still we say,
Let business climb or fall—
That of the laundries of the town
THE SEYMOUR leads them all.

We've got the best machinery,
With steadfast hands galore;
We always make your linen shine
Like seafoam on the shore.

And when it comes to quickness
Let us here politely state,
That we have hustled from the start,
At a royal rapid gait.

We do not wear your garments out,
Nor wash them out of line—
Your pair of ten-cent socks don't get
A shade of work less fine—

Than your embroidered linen,
Regardless of the quand'ry
Some folks are in who yawn and yell
Against the SEYMOUR LAUNDRY.

So when our free street fair is o'er
Don't fling this to the dirt,
But keep it so that you may know
The place to send your shirt.

This is a queer county in some respects. Col. Bryan is compelled to take off his uniform in order to put on his fighting clothes.

When the votes are counted in November it will be discovered that Col. Roosevelt is a resident of New York, and by a large majority.

In his opening campaign speech Mr. Bailey complimented "my democratic assistants in Congress." It was quite magnanimous in Mr. Bailey. He might have referred to his hired hands.

The campaign orators who go about now finding fault with their government are not the men who fought for the Union from '61 to '65 and endured untold hardships in camp, on the battle field and in rebel prisons.

LEADER Joe Bailey cannot understand why his speeches are not endorsed by the respectable democratic newspapers. This is the same Mr. Bailey who could not understand why his leadership was so ludicrous.

The Connecticut democrats have discarded the Chicago platform and propose to make a campaign on state issues. Yet George Fred Williams went all the way to Omaha to inform the country that the cause of free silver was gaining in New England.

JUDGE Hackney has fully made up his mind on the democratic situation in Indiana and has withdrawn from the state ticket. Judge Hackney is one of the most prominent democrats in the state and has made a good record on the supreme bench. He is not and never has been in sympathy with his party on the money question.

E. M. Young, who succeeds W. P. Rider as the proprietor of the Crothersville Commercial says in his "salute" that the Commercial under the new management will be run purely as a "financial enterprise" and we believe it. Mr. Young has been a resident of Seymour for several years, during which time he has claimed to be a republican and has been so polled, but in taking charge of the Commercial he lays aside his political convictions and says that the paper will henceforth advocate "democracy." He also commits himself to the official ringsters of the county. Therefore can anyone doubt that the Commercial under its new management is run "purely as a financial enterprise"?

Who knows the democratic position on the problems of annexation? The speakers who have been heard in the Fourth district are at variance on that subject which shows that the party has not reached a conclusion on one of the most important questions before the people. Congressman Griffith voted for the annexation of Hawaii, but John W. Kern and Green Smith who are working under the direction of the state committee have been down telling the democrats of the district that the annexation of Hawaii was all wrong, therefore their representative in congress voted wrong. John Overmyer in his speeches says that annexation is just the thing and that we must not stop with Hawaii, but should take in all the islands of the sea that our soldiers have trod upon during the recent war. Frank Burke tells the people that not a foot of territory should be added. So with these spokesmen at variance what are we to conclude as to the democratic position on this question of supreme interest to the people. The coming of Kern and Smith into the district and their arguments against the vote of Griffith in congress on the annexation question is embarrassing to the men who have to make the fight for the reelection of their congressman.

Deafness Cannot be Cured By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HEAD-END COLLISION.

Five Tramps Killed and Several Trainmen Injured in a Wreck at Dillsboro.

A head-end collision took place between two freight trains on the B. & O. S-W. late Thursday evening two miles east of Dillsboro Station. No. 98, second, going east, Riley Reed conductor, and No. 97, J. Kaley, conductor, going west, came together with a crash that was heard a mile away. Both engines were badly demolished and 23 cars derailed. A number were loaded with merchandise of every description that was piled promiscuously about, but not extensively damaged. Engineers McClellan and Righthouse, brakemen John Lee and Harry Bryan, firemen, Fred Hodapp and William Wagner were all more or less injured.

The dead bodies of four tramps were removed from the debris of the wreck, but nothing found to identify them. The two brakemen were seriously injured, and Dennis Knowles, of Lawrenceburg, who was stealing a ride, was cut and bruised considerably, but not dangerously. A misunderstanding of orders is alleged to have been the cause of the disaster, but who is to blame has not been ascertained.

The wrecking train went to work clearing the track and passenger trains were run over the Big Four line until the tracks were cleared this morning.

Four of the tramps were identified as John Lee, P. Daniels, J. Daniels and Steve Righthouse. The unknown tramp is colored.

SOLDIERS' DAY.

REGARDLESS OF THE RAIN THE VETERANS ARE WITH US.

Addresses by Major Lee, Attorneys Montgomery and Wood and Others.—The Great Crowd Last Night.—The Rain.

Owing to the slight rain that has fallen the attendance at the street fair today has not assumed such proportions as yesterday. When the evening trains arrived yesterday and their hundreds of passengers were unloaded the streets were packed. And when the little shower came up about 8 o'clock it seemed impossible that all could find shelter, but the stores and other buildings along the main streets were thrown wide open and in a few minutes all were on the inside, though in many places uncomfortably crowded.

Though the rain was not hard and lasted but a few minutes, the entertainments from the several stages had to be abandoned for the evening.

One of the most interesting features of the fair was the wedding on the East Second street stage last evening on 7 o'clock on stage No. 3. Promptly on the hour Elder Thos. Jones came onto the stage, followed by the bride and groom, Mr. Sidney Younger, of Mitchell, and Miss Alice McNelly, daughter of Mr. and Mrs. Joseph McNelly, of this city. The Elder was at his best and pronounced the ceremony to perfection in the presence of no less than 10,000 people. The happy bride and groom not only have the hearty congratulations of their many friends, but have been presented with a beautiful bedroom suite by A. J. Conroy.

This is old soldiers' day and in spite of the rain the soldiers are here in large numbers. In the parade this afternoon were many veterans of the civil war and quite a company of the young soldiers who enlisted in the Spanish-American war.

The meeting at the Opera House immediately after the parade was addressed by Major Chas. W. Lee, Major Strickland, Comrade Hutchinson, Hon. O. H. Montgomery and Hon. Carl Wood, all of whom spoke well. Comrade Thos. Jones presided over the meeting.

This is a queer country in some respects. Col. Bryan is compelled to take off his uniform in order to put on his fighting clothes.

When the votes are counted in November it will be discovered that Col. Roosevelt is a resident of New York, and by a large majority.

In his opening campaign speech Mr. Bailey complimented "my democratic assistants in Congress." It was quite magnanimous in Mr. Bailey. He might have referred to his hired hands.

The campaign orators who go about now finding fault with their government are not the men who fought for the Union from '61 to '65 and endured untold hardships in camp, on the battle field and in rebel prisons.

Leader Joe Bailey cannot understand why his speeches are not endorsed by the respectable democratic newspapers. This is the same Mr. Bailey who could not understand why his leaders' lips were so ludicrous.

The Connecticut democrats have discarded the Chicago platform and propose to make a campaign on state issues. Yet George Fred Williams went all the way to Omaha to inform the country that the cause of free silver was gaining in New England.

Judge Hackney has fully made up his mind on the democratic situation in Indiana and has withdrawn from the state ticket. Judge Hackney is one of the most prominent democrats in the state and has made a good record on the supreme bench. He is not and never has been in sympathy with his party on the money question.

E. M. Young, who succeeds W. P. Rider as the proprietor of the Crothersville Commercial says in his "salute" that the Commercial under the new management will be run purely as a "financial enterprise" and we believe it. Mr. Young has been a resident of Seymour for several years, during which time he has claimed to be a republican and has been so polled, but in taking charge of the Commercial he lays aside his political convictions and says that the paper will henceforth advocate democracy. He also commits himself to the official ringsters of the county. Therefore can anyone doubt that the Commercial under its new management is run "purely as a financial enterprise"?

Who knows the democratic position on the problems of annexation? The speakers who have been heard in the Fourth district are at variance on that subject which shows that the party has not reached a conclusion on one of the most important questions before the people. Congressman Griffith voted for the annexation of Hawaii, but John W. Kern and Green Smith who are working under the direction of the state committee have been down telling the democrats of the district that the annexation of Hawaii was all wrong, therefore their representative in congress voted wrong. John Overmyer in his speeches says that annexation is just the thing and that we must not stop with Hawaii but should take in all the islands of the sea that our soldiers have trod upon during the recent war. Frank Burke tells the people that not a foot of territory should be added. So with these spokesmen at variance what are we to conclude as to the democratic position on this question of supreme interest to the people. The coming of Kern and Smith into the district and their arguments against the vote of Griffith in congress on the annexation question is embarrassing to the men who have to make the fight for the reelection of their congressman.

Bismarck as Dr. Jekyll.

No greater contrast could possibly be imagined than that which existed between the Bismarck of private life and the Bismarck of politics. "In the home circle," writes a correspondent who knew him well, "he was perfectly charming, easy going and good natured. He was passionately fond of children, and I have seen him over and over again have a game with the little ones of his gardener, who were very familiar with him and would not hesitate to climb upon his knee.

"Once when his gardener's little girl died the great statesman went to console with him. He was dreadfully upset and while holding the poor father's hand burst into tears, for he was very fond of the child. He kissed the little corpse and himself placed a bunch of roses in its hand. He was always eager to assist his poorer neighbors and enjoyed chatting with them on all subjects but politics. These he never mentioned."—London Chronicle.

Servian Marriages.

Servian men do not marry for love, but to secure an additional worker for the household, so very young men marry when several years older than themselves, as girls are less experienced in housework. In the lower and middle classes women are always helped last, and may not sit down unbidden in the presence of the men.

There are only 3,842 left of the Ainous of Japan—the "Indians" of that country. Nearly all of them live on the northern island of Yezo.

It has been estimated that it would take a man 3,000 years to read all the standard works.

THE RICH RUSSIAN.

He Has a Weakness For an Army of Family Servants.

We were a family of 8, occasionally of 10 or 12 says Prince Kropotkin in The Atlantic, but 50 servants at Moscow, and half as many more in the country, were considered not one too many. Four coachmen to attend a dozen horses, three cooks for the masters and two more for the servants, a dozen men to wait upon us at dinner time—one man, plate in hand, standing behind each person seated at the table—and girls innumerable in the maidservants' room, but how could any one do with less than this?

Besides, the ambition of every landed proprietor was that everything required for his household should be made at home by his "own" men.

"How nicely your piano is always tuned. I suppose Herr Schimmel must be your tuner?" one of the visitors would remark.

To be able to answer, "I have my own piano tuner," was in those times the correct thing.

"What beautiful pastry!" the guests would exclaim when a work of art, composed of ices and pastry, appeared toward the end of the dinner. "Confess, prince, that it comes from Tremble!" (the fashionable pastry cook).

"It is my own confectioner, a pupil of Tremble, whom I have allowed to show what he can do," was the reply which elicited general admiration.

To have embroideries, harnesses, furniture—in fact everything—made by one's "own" men was the ideal of the rich and respected landed proprietor.

The Professor's Wisdom.

The stern professor of the feminine preparatory school sat at his desk trying to unravel a knotty problem when a fluffy haired miss of 16 approached.

"Please, sir," she began in a tremulous voice, "will you grant me permission to go out riding with my brother this afternoon?"

Now, the old man had not forgotten the days of his youth, neither was he a fool, and looking over his spectacles he slowly said:

"So you want to go riding with your brother, do you? By the way, is this brother of yours any relation to you?" —Chicago News.

THE SEYMOUR STEAM LAUNDRY.

Our Street Fair Song.

We set the pace, and from one point
Our banner shall not fall—
We fling it to the breeze and reach
Some higher than them all!

Our wagon flies round Seymour town
Each hour of every day,
Depositing and picking up
All LAUNDRY on the way.

We do not boast, and still we say,
Let business climb or fall—
That of the laundries of the town
THE SEYMOUR leads them all.

We've got the best machinery,
With steadfast hands galore;
We always make your linen shine
Like seafarers on the shore.

And when it comes to quickness
Let us here politely state,
That we have hustled from the start
At a royal rapid gait.

We do not wear your garments out,
Nor wash them out of line—
Your pair of ten-cent socks don't get
A shade of work less fine—

Than your embroidered linen,
Regardless of the quandy
Some folks are in who yawn and yell
Against the SEYMOUR LAUNDRY

So when our free street fair is o'er
Don't fling this to the dirt;
But keep it so that you may know
The place to send your shirt

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HEAD-END COLLISION.

Five Tramps Killed and Several Trainmen Injured in a Wreck at Dillsboro.

A head-end collision took place between two freight trains on the B. & O. S-W. late Thursday evening two miles east of Dillsboro Station. No. 98, second, going east, Riley Reed conductor, and No. 97, J. Kaley, conductor, going west, came together with a crash that was heard a mile away. Both engines were badly demolished and 23 cars derailed. A number were loaded with merchandise of every description that was piled promiscuously about, but not extensively damaged. Engineers McClellan and Righthouse, brakemen John Lee and Harry Bryan, firemen, Fred Hodapp and William Wagner were all more or less injured.

The dead bodies of four tramps were removed from the debris of the wreck, but nothing found to identify them. The two brakemen, were seriously injured, and Dennis Knowles, of Lawrenceburg, who was stealing a ride, was cut and bruised considerably, but not dangerously. A misunderstanding of orders is alleged to have been the cause of the disaster, but who is to blame has not been ascertained.

The wrecking train went to work clearing the track and passenger trains were run over the Big Four line until the tracks were cleared this morning. Four of the tramps were identified as John Lee, P. Daniels, J. Daniels and Steve Righthouse. The unknown tramp is colored.

SOLDIERS' DAY.

REGARDLESS OF THE RAIN THE VETERANS ARE WITH US.

Addresses by Major Lee, Attorneys Montgomery and Wood and Others—The Great Crowd Last Night.—Th Rain.

Owing to the slight rain that has fallen the attendance at the street fair today has not assumed such proportions as yesterday. When the evening trains arrived yesterday and their hundreds of passengers were unloaded the streets were packed. And when the little shower came up about 8 o'clock it seemed impossible that all could find shelter, but the stores and other buildings along the main streets were thrown wide open and in a few minutes all were on the inside, though in many places uncomfortably crowded.

Though the rain was not hard and lasted but a few minutes, the entertainments from the several stages had to be abandoned for the evening.

One of the most interesting features of the fair was the wedding on the East Second street stage last evening on 7 o'clock on stage No. 3. Promptly on the hour Elder Thos. Jones came onto the stage, followed by the bride and groom, Mr. Sidney Younger, of Mitchell, and Miss Alice McNelly, daughter of Mr. and Mrs. Joseph McNelly, of this city. The Elder was at his best and pronounced the ceremony to perfection in the presence of no less than 10,000 people. The happy bride and groom not only have the hearty congratulations of their many friends, but have been presented with a beautiful bedroom suite by A. J. Conroy.

This is old soldiers' day and in spite of the rain the soldiers are here in large numbers. In the parade this afternoon were many veterans of the civil war and quite a company of the young soldiers who enlisted in the Spanish-American war.

The meeting at the Opera House immediately after the parade was addressed by Major Chas. W. Lee, Major Strickland, Comrade Hutchinson, Hon. O. H. Montgomery and Hon. Carl Wood, all of whom spoke well. Comrade Thos Jones presided over the meeting.

MAKES COMPLAINT.

A Columbus Manufacturer Says Our Street Fair Interferes With his Business.

This morning the REPUBLICAN received a letter from one of the manufacturers at Columbus in which he states a grievance. "Our street fair is interfering with the running of their plant. He says:

"We have been in trouble at our factory this week all on account of your pumpkin show at Seymour. I would not care for a few days but I understand it is to continue on until cold weather. If it does we will be under the necessity of shutting down our factory. Just think of it! Our treasurer, vice-president, superintendent, billing clerk and most of our workmen are all spending their time and money away from home at a pumpkin show. Now I think you should use your influence to stop it in a few days at least and let our people go to work again."

Greely tells in the "October Ladies' Home Journal, the fearful experience of himself and his ice-imprisoned band of explorers as they faced death for two hundred and sixty-four sunless days at the North Pole. Those who read Caroline A. Mason's novel, "A Minister of the World," will welcome her new serial, which begins with spirit and the sign of a rare touch.
